

BAXTER

COMFORT AND INGENUITY

BAXTER, an alternative to the TRACKER, offers total comfort thanks to its extreme wrap-around frame. With waterproof foam and an ingenious system for attaching the strap, BAXTER offers effective protection from sprays of solids and liquids, and from dust. BAXTER is also available in the RX range.

TECHNOLOGY

CSP

This innovative coating is an effective solution for all activities that alternate exposure to bright light and low light, while also being suitable for extreme hot and cold temperature environments.

CSP is also combined with the exclusive PLATINUM coating that sustainably combats fogging.

PLATINUM

The new exclusive scratch and fog resistant coating guarantees even more safety, reliability and comfort. Washable (water and soap), this permanent coating applied on both sides of the lens makes it highly scratch resistant and durably delays the appearance of fogging.

PROP 65

CLEANING AND STORAGE

CLEANING: The lenses should be cleaned regularly. Bollé Safety recommends only using the B-clean lens cleaning system.

MAINTENANCE: Pitted, scratched or damaged lenses must be replaced by replacing the complete product. If the frame is damaged also replace the complete product. After each use it is recommended to keep the spectacles or goggles in a microfiber pouch or rigid case.

STORAGE: All products must be stored in a dry and clean environment.
